

## VIDEO/MULTIMEDIA II

### **VIDEO AND...**

For next week I would like you to finish your "Video and..." projects. They should be ready for critique at the beginning of class.

Please make sure all your technology works – check DVDs after you burn them, make sure cameras are charged, etc. If you need an extension cord or power strip bring that too. You are responsible for all parts of your project.

The lab is open from 9-10am on Tuesday morning, so if you need to come early to set up please do so. The lab monitor will be in to open the lab and I will try to get here early to help if you need it.

We have a very full class so it's critical that you be prepared and on time for the critique.

Next week: Critique of "Video and..." projects and Video I projects, audio in Final Cut and in general
